THE READING / TAPESCRIPT

From: <http://www.NewsEnglishLessons.com/1206/120606-mars.html>

A company from Holland has announced plans to send people to Mars by 2023. The new project is called Mars One and is the brainchild of Dutch businessman Bas Lansdorp. He plans to send four astronauts on the greatest journey ever made by humans in 11 years time. Those who make the journey will never return to Earth. The scariest part of their contract will be they must stay on Mars forever and help build the complex that other space travellers will stay on.

Mr Lansdorp is the former CEO of an alternative energy company. He said step one of his plan is to send a communications satellite to Mars in 2016. Two years later, he'll land a robot on wheels on the red planet to look for a good place to build the Martian accommodation. In 2020, all of the materials needed for the complex will make its way to Mars, including equipment to make water and oxygen. Lansdorp said the four astronauts will head off into space on September 14, 2022.

PHRASE MATCH

From: <http://www.NewsEnglishLessons.com/1206/120606-mars.html>

Match the following phrases from the article.

WRITING

From: <http://www.NewsEnglishLessons.com/1206/120606-mars.html>

Write about Mars for 10 minutes. Show your partner your paper. Correct each other's work.

[illegible]

HOMEWORK

1. VOCABULARY EXTENSION: Choose several of the words from the text. Use a dictionary or Google's search field (or another search engine) to build up more associations / collocations of each word.

2. MARS: Search the Internet and find more information about Mars. Talk about what you discover with your partner(s) in the next lesson.

3. MAGAZINE ARTICLE: Write a magazine article about Mars. Include an imaginary interview with a Martian. Read what you wrote to your classmates in the next lesson. Give each other feedback on your articles.

4. WHAT HAPPENED NEXT? Write a newspaper article about the next stage in this news story. Read what you wrote to your classmates in the next lesson. Give each other feedback on your articles.

5. LETTER: Write a letter to a Mars expert. Ask him/her three questions about the red planet. Give him/her three of your opinions on living on it. Read what you wrote to your classmates in the next lesson. Your partner will answer the questions you asked.
